various inquiries from the staff of members of the House Permanent
Select Committee on Intelligence regarding the Libyan situation.
AUSA [redacted] expressed concern over the release of any informa-
tion relating to [redacted]
[redacted] which is pending indictment at Houston.

4) AUSA [redacted] advised he recently discussed the
1/11/82 Public Broadcasting Service (PBS) program, "Frank
Terpil: Confessions of a Dangerous Man," with Associate
Producer [redacted] indicated he has documents and
notes of Terpil interviews which he will provide to Federal
authorities. [redacted] advised he would ask [redacted]
[redacted] for copies of tapes of the Terpil
interviews, [redacted]
[redacted]

Immediately following the above meeting, DOJ
Internal Security Section Chief (SC) [redacted] and
Attorney [redacted] provided an espionage briefing for
AUSA [redacted] and the FBI representatives listed above. SC
[redacted] discussed the elements of U.S. espionage statutes,
and thereafter, identified eight pieces of information provided
by [redacted] that have potential
espionage considerations. These are being pursued by the
[redacted] and the Alexandria Division.

Subject: WILSON/TERPIL INVESTIGATION

PURPOSE: To keep you advised of requests for polygraph support in this investigation.

DETAILS: On 2/12/82 [redacted] Intelligence Division, forwarded a letter to SA [redacted] that he had received from the Justice Department requesting Bureau polygraph support in the Wilson/Terpil investigation. After this request for support had been approved within the Laboratory SA [redacted] attempted to contact SA [redacted] Washington Field Office polygraph examiner, to assign him this examination. SA [redacted] was on annual leave. SA [redacted] left a message for him at the Washington Field Office switchboard.

b6 -1
b7C -1

On the same date 2/12/82, SA [redacted] telephonically contacted AUSA [redacted] whose name appears at the bottom of this request, from the Justice Department, and notified him that this request had been received and that the polygraph examiner assigned this case would be in contact with him soon. [redacted] was told that it would probably be SA [redacted] SA [redacted] asked if Washington Field Office was working this case and [redacted] stated that the Alexandria Office had the case.

On 2/16/82 SA [redacted] arrived at the polygraph office, FBIHQ. He was shown the request from the Justice Department, the case was briefly discussed and he was asked to contact [redacted] and arrange for the examination.

During a subsequent conversation with SA [redacted] on 2/18/82, SA [redacted] advised SA [redacted] that he had been in touch with [redacted] but nothing definite had been set.

USE OF FORM 0-73

1. Only incoming teletype messages which require transmission relay may be prepared for transmission using form 0-73. Use of form 0-73 is restricted to incoming teletype messages received within the last 3 days which require transmission relay; all other teletype messages must be prepared using form 0-93.
2. Additions such as notes and administrative data for a specific addressee are not allowed. If a note or administrative data is required for a particular addressee a separate 0-73 form must be prepared.
3. The message will be transmitted just as it appears. The person approving the message is solely responsible for assuring all necessary editing changes have been made.

PREPARATION OF FORM WHICH CONSISTS OF A PREPRINTED YELLOW.

1. Complete appropriate boxes: date, classification & precedence.
2. List addresses immediately following the "TO" or place a check mark in the appropriate boxes.
3. Type or PRINT the subject in the space provided.
4. Print or type originator's name, room number and telephone extension.
5. Indicate approval for transmission by initialing the "Approved By" box.

PREPARATION OF MESSAGE TO BE TRANSMITTED

1. Xerox 1 copy of incoming teletype message. A notation shall be made on the original incoming teletype "1 copy made for relay to SACS _____, (OR LEGATS) _____, (OR GOVERNMENT AGENCIES) _____."
2. Minor editing changes shall be made on the xerox as follows: using a lead pencil ONLY draw single line through the first and last lines of the heading and connect these lines from top right to bottom left forming a "Z" figure. (DO NOT OBLITERATE THE HEADING.) Use horizontal lines to delete sentences or words. Printed changes of a word or two to the text of the message may be made; however, changes to the existing text involving more than a word or two necessitate the originator to initiate a new message using form 0-93.
3. Administrative data or notes may be typed immediately following the text and will be transmitted to all addressees.
4. When using the 0-73 form to disseminate information to field offices, Legal Attaches and other Government agencies simultaneously, the text, notes and administrative data must be identical for all addressees.

USE OF FORM 0-73

1. Only incoming teletype messages which require transmission relay may be prepared for transmission using form 0-73. Use of form 0-73 is restricted to incoming teletype messages received within the last 3 days which require transmission relay, all other teletype messages must be prepared using form 0-93.
2. Additions such as notes and administrative data for a specific addressee are not allowed. If a note or administrative data is required for a particular addressee a separate 0-73 form must be prepared.
3. The message will be transmitted just as it appears. The person approving the message is solely responsible for assuring all necessary editing changes have been made.

PREPARATION OF FORM WHICH CONSISTS OF A PREPRINTED YELLOW.

1. Complete appropriate boxes: date, classification & precedence.
2. List addresses immediately following the "TO" or place a check mark in the appropriate boxes.
3. Type or PRINT the subject in the space provided.
4. Print or type originator's name, room number and telephone extension.
5. Indicate approval for transmission by initialing the "Approved By" box.

OF INVESTIGATION

PREPARATION OF MESSAGE TO BE TRANSMITTED

1. Xerox 1 copy of incoming teletype message. A notation shall be made on the original incoming teletype "1 copy made for relay to SACS _____, (OR LEGATS) _____, (OR GOVERNMENT AGENCIES) _____."
2. Minor editing changes shall be made on the xerox as follows: using a lead pencil ONLY draw single line through the first and last lines of the heading and connect these lines from top right to bottom left forming a "Z," figure. (DO NOT OBLITERATE THE HEADING.) Use horizontal lines to delete sentences or words. Printed changes of a word or two to the text of the message may be made; however, changes to the existing text involving more than a word or two necessitate the originator to initiate a new message using form 0-93.
3. Administrative data or notes may be typed immediately following the text and will be transmitted to all addressees.
4. When using the 0-73 form to disseminate information to field offices, Legal Attaches and other Government agencies simultaneously, the text, notes and administrative data must be identical for all addressees.

Reference is made to prior communications from [redacted]

Based on the information received from [redacted]
discussions have been held with State Department and the NSC

[redacted] Department of State
advised me that the matter had been discussed with Secretary Haig
and Judge Clark and that the Department of Justice had full
authority to handle the matter as it deemed appropriate.

[redacted] requested that he be kept apprised of how we intended
to proceed. He also indicated that Judge Clark wished that the
Attorney General be personally kept apprised of any actions [redacted]

On March 16, a conference was held with members of the

MAR 31 1982

1. Only incoming teletype messages which require transmission relay may be prepared for transmission using form 0-73. Use of form 0-73 is restricted to incoming teletype messages received within the last 3 days which require transmission relay; all other teletype messages must be prepared using form 0-93.
2. Additions such as notes and administrative data for a specific addressee are not allowed. If a note or administrative data is required for a particular addressee a separate 0-73 form must be prepared.
3. The message will be transmitted just as it appears. The person approving the message is solely responsible for assuring all necessary editing changes have been made.

PREPARATION OF FORM WHICH CONSISTS OF A PREPRINTED YELLOW.

1. Complete appropriate boxes: date, classification & precedence.
2. List addresses immediately following the "TO" or place a check mark in the appropriate boxes.
3. Type or PRINT the subject in the space provided.
4. Print or type originator's name, room number and telephone extension.
5. Indicate approval for transmission by initialing the "Approved By" box.

PREPARATION OF MESSAGE TO BE TRANSMITTED

1. Xerox 1 copy of incoming teletype message. A notation shall be made on the original incoming teletype "1 copy made for relay to SACS _____, (OR LEGATS) _____, (OR GOVERNMENT AGENCIES) _____."
2. Minor editing changes shall be made on the xerox as follows: using a lead pencil ONLY draw single line through the first and last lines of the heading and connect these lines from top right to bottom left forming a "Z," figure. (DO NOT OBLITERATE THE HEADING.) Use horizontal lines to delete sentences or words. Printed changes of a word or two to the text of the message may be made; however, changes to the existing text involving more than a word or two necessitate the originator to initiate a new message using form 0-93.
3. Administrative data or notes may be typed immediately following the text and will be transmitted to all addressees.
4. When using the 0-73 form to disseminate information to field offices, Legal Attaches and other Government agencies simultaneously, the text, notes and administrative data must be identical for all addressees.

USE OF FORM 0-73

1. Only incoming teletype messages which require transmission relay may be prepared for transmission using form 0-73. Use of form 0-73 is restricted to incoming teletype messages received within the last 3 days which require transmission relay, all other teletype messages must be prepared using form 0-93.
2. Additions such as notes and administrative data for a specific addressee are not allowed. If a note or administrative data is required for a particular addressee a separate 0-73 form must be prepared.
3. The message will be transmitted just as it appears. The person approving the message is solely responsible for assuring all necessary editing changes have been made.

PREPARATION OF FORM WHICH CONSISTS OF A PREPRINTED YELLOW.

1. Complete appropriate boxes: date, classification & precedence.
2. List addresses immediately following the "TO" or place a check mark in the appropriate boxes.
3. Type or PRINT the subject in the space provided.
4. Print or type originator's name, room number and telephone extension.
5. Indicate approval for transmission by initialing the "Approved By" box.

RECEIVED
COMMUNICATIONS UNIT
3 APR 82 11 31 AM
FEDERAL BUREAU OF INVESTIGATION

PREPARATION OF MESSAGE TO BE TRANSMITTED

1. Xerox 1 copy of incoming teletype message. A notation shall be made on the original incoming teletype "1 copy made for relay to SACS _____, (OR LEGATS) _____, (OR GOVERNMENT AGENCIES) _____."
2. Minor editing changes shall be made on the xerox as follows using a lead pencil ONLY draw single line through the first and last lines of the heading and connect these lines from top right to bottom left forming a "Z," figure. (DO NOT OBLITERATE THE HEADING.) Use horizontal lines to delete sentences or words. Printed changes of a word or two to the text of the message may be made; however, changes to the existing text involving more than a word or two necessitate the originator to initiate a new message using form 0-93.
3. Administrative data or notes may be typed immediately following the text and will be transmitted to all addressees.
4. When using the 0-73 form to disseminate information to field offices, Legal Attaches and other Government agencies simultaneously, the text, notes and administrative data must be identical for all addressees.

DECLASSIFIED ON 4/6/89

FBI(21-cv-5450)-6998

USE OF FORM 0-73

1. Only incoming teletype messages which require transmission relay may be prepared for transmission using form 0-73. Use of form 0-73 is restricted to incoming teletype messages received within the last 3 days which require transmission relay, all other teletype messages must be prepared using form 0-93.
2. Additions such as notes and administrative data for a specific addressee are not allowed. If a note or administrative data is required for a particular addressee a separate 0-73 form must be prepared.
3. The message will be transmitted just as it appears. The person approving the message is solely responsible for assuring all necessary editing changes have been made.

PREPARATION OF FORM WHICH CONSISTS OF A PREPRINTED YELLOW.

1. Complete appropriate boxes: date, classification & precedence.
2. List addresses immediately following the "TO" or place a check mark in the appropriate boxes.
3. Type or PRINT the subject in the space provided.
4. Print or type originator's name, room number and telephone extension.
5. Indicate approval for transmission by initialing the "Approved By" box.

PREPARATION OF MESSAGE TO BE TRANSMITTED

1. Xerox 1 copy of incoming teletype message. A notation shall be made on the original incoming teletype "1 copy made for relay to SACS _____, (OR LEGATS) _____, (OR GOVERNMENT AGENCIES) _____."
2. Minor editing changes shall be made on the xerox as follows: using a lead pencil ONLY draw single line through the first and last lines of the heading and connect these lines from top right to bottom left forming a "Z," figure. (DO NOT OBLITERATE THE HEADING.) Use horizontal lines to delete sentences or words. Printed changes of a word or two to the text of the message may be made; however, changes to the existing text involving more than a word or two necessitate the originator to initiate a new message using form 0-93.
3. Administrative data or notes may be typed immediately following the text and will be transmitted to all addressees.
4. When using the 0-73 form to disseminate information to field offices, Legal Attaches and other Government agencies simultaneously, the text, notes and administrative data must be identical for all addressees.

FRANCIS EDWARD TERPIL -
FUGITIVE

On April 23, 1980, after an extensive investigation, the Federal Grand Jury, District of Columbia, returned a ten-count indictment against Edwin P. Wilson, Jerome S. Brower and Terpil. These three individuals were charged with a variety of offenses, including violations of the Foreign Agents Registration Act, Perjury, Solicitation to Commit Murder and Conspiracy to supply the Libyan Government with personnel and explosives and to train others in making explosive devices in a terrorist training project.

On April 25, 1980, Terpil was arrested by Bureau of Alcohol, Tobacco and Firearms (BATF) Agents and released on bond. When Terpil failed to make a court appearance on local charges on September 4, 1980, in New York City, the Federal arrest warrant was reissued. Terpil has remained a Federal fugitive since then.

On December 22, 1979, Terpil was arrested by the New York City Police on firearms charges. When he failed to appear for trial (September 4, 1980) on the charges, he was later convicted in absentia and sentenced to fifty-three years in prison on the charges of possession of weapons and manufacture, transportation and disposition of weapons, dangerous instruments and appliances.

The following is a description of Terpil:

Date and Place of Birth: November 2, 1939, Brooklyn,
New York
Hair: Brown, receding hairline
(may now be bald)
Eyes: Hazel
Height: 5'10"
